Dear «Name»,

Australian Election Study

This is a survey of voting in the recent federal election, conducted by Queensland University of Technology and the Australian National University. The study is supported by a grant from the Australian Research Council. We are interested in how people voted in the election and the reasons for their choice.

Why we need to hear from you

This survey forms part of an important long-term study of Australian politics and elections, which examines such questions as changing support for the political parties, the role of the party leaders and the importance of political issues, like the economy and the environment.

Benefits and risks

In completing this survey you will help to provide researchers and policy makers with a better understanding of what Australians think and feel about the way government works and the decisions that it makes. The study will also become part of a large resource maintained by the Australian Social Science Data Archive to be used in Australia and overseas for social and comparative research. There are no risks beyond normal day-to-day living associated with your participation in this project.

Completing the survey

This survey should take around half an hour to complete and your participation is entirely voluntary. If you choose to participate, you can complete online by going to www.srcentre.com.au/aes and follow the links. To access this survey you will need the username and password located in the panel in the top right hand corner of this page. Alternatively, you can complete and return this questionnaire in the reply-paid envelope provided. Respondents who complete the Australian Election Study early and return the questionnaire by **26 September 2013** will be entered into a prize draw to win \$500 cash. In total 3 x \$500 will be drawn. For those who complete and return the questionnaire by **25 October 2013** you will also be entered into a prize draw to win \$500 cash (refer to prize draw terms and conditions of entry at www.srcentre.com.au/aes). To assist you there are some instructions before the beginning of the questionnaire about how to fill it out. Remember, it is important that we get your personal views on the issues outlined in the questionnaire as well as some general information about yourself.

Confidentiality

Your views will remain strictly confidential and will be reported only as part of the general findings from the survey. The only identifying feature on the questionnaire is a barcode which is used to avoid sending you reminders after you have returned the completed questionnaire. The link between this barcode and your name and address is securely stored and is destroyed once the survey is completed.

Queries

If you have any questions about the survey or would like to opt out, you can call the toll free hotline on **1800 023 040**.

Thank you in advance for your participation.

Yours sincerely,

How To Fill Out This Questionnaire

To answer most of the questions you only need to **cross a box**. Please cross the box which is **closest** to your view—there are no right or wrong answers. Here is an example:

Do you think the government should spend more or less on education?	
Spend more on education	1
Doesn't matter	2
Spend less on education	3
If you think the government should spend more on education, you would put a cross in the box as shown.	

Some boxes have "Go to" instructions that look like this: → **GO TO B3**

Sometimes you are asked to write in an answer — in that case, simply write your answer in the space provided.

Please read each question carefully. Remember, there are no right or wrong answers—we just want to know **your own** personal opinions.

We hope you enjoy the questionnaire. Thank you very much for taking part in this study.
