

DDI4 Prototype Status Report

0=Missing; 1=Partial Draft; 2=Full Draft; 3=Complete (what is provided covers the intended prototype content of this release)

DELIVERY OBJECT	STATUS	COMMENT
XML (Library and Each View)	3	Complete representation of published content
RDF/OWL (Library and Each View)	3	Complete representation of published content
Model diagrams	2	Still working on a comprehensive view of the model and clickable movement through the model
DDI General Documentation	2	Full draft of content coverage identified by modelers and developers. Prototype review needs to consider coverage and presentation to identify any areas of improvement needed.
Documentation of Library (all packages)	2	All classes and packages have definitional information. What is provided is a good basis for comments on format and coverage.
Documentation of each Functional View	2	Functional View documentation has received extensive work and needs feedback from users to evaluate format and coverage.
Status of DDI Lifecycle (3.2) objects covered by model	1	First pass review but not detailed
Status of DDI Codebook (2.5) objects covered by model	1	First pass review but not detailed
Status of GSIM objects covered by model	1	First pass review but not detailed
