DDI Scientific Board meeting

July 13, 2021

XKOS Working Group

Planned Actvities

- ## Set up the group
  - – Currently four members
  - – Procedure?
- ## Inventorize existing implementations
  - – Add them on XKOS page
- ## Best Practice document
  - – Main activity for future months

Best Practice document

- ## Work starting
  - – Current team: T. Francart, C. Dzikowski, F. Cotton
  - – Working on Google Docs

- ## Foreseen deliverables

  - – Document itself

  - – Validation kit (SHACL)

  - – Examples and tools (converters, DCAT generator...)

Best Practice document

- Subjects covered
  - Classifications, levels
  - Labels, notes
  - Correspondences, links between items
  - Evolution, versionning
  - Publication (metadata, packaging)
  - URIs

Best Practice document

- ## Please provide feedback

  - Group membership

  - Expected time frame

  - Procedure (e.g. public review)

  - Endorsement and publication

DDI Scientific Board meeting

July 13, 2021

DDI-CDI / NGSI-LD Work

What is that?

- ## Interstat project
  - Engineering, Fiware, Istat & Insee
  - One of the objectives is to facilitate the disseminatation of statistical data via the CEF Context Broker
- ## NGSI-LD is the information model and API specification for the Context Broker
- ## So how does NGSI-LD interoperate with statistical information models, in particular DDI-CDI?

Where are we?

- Just started: first meeting yesterday

- General interest on the topic

- Subtopics identified: models and use cases

- GitHub repo set up (Statistics Contextualized)

- Will be discussed in Dagstuhl

- Presentation at the SDMX Global Conference
