

- What is today's topic?
- Participants
- Presenter
- What are the specific challenges of documenting a panel study?
- Participants: What are your challenges?

I Am ...

- Name
- Institution
- Background
- Do you actually work with metadata?
- What do you expect from the workshop, would like to learn or discuss?

Hopefully the prepared slides fit to some of your expectations. It is possible to leave this path at any time!

Which Method Would You (Not) Use, If ...

- Measurement is stable or changes a lot over time?
 - Information is stored in a long format, i.e. one variable contains information from multiple waves?
 - Transformation information should be stored?
 - Versioning of metadata differs from data?
-
- Your use case?
